BASEBALL CANADA MEMBERSHIP FEE

SUPPORTING THE LONG-TERM HEALTH AND DEVELOPMENT OF BASEBALL

Effective for the 2027-2028 fiscal year

With Baseball Canada’s membership fee unchanged for more than a decade, coupled with nearly 38% growth in membership since 2022, the investment will provide additional resources to support the national federation, provincial organizations and the programs they deliver in partnership across Canada.

INTRODUCTION

The work leading to the adjustment began at the Baseball Canada Fall Convention in 2024, where Baseball Canada and its provincial partners discussed the evolving needs and priorities of the sport. Subsequent consultation, priority setting, financial analysis and working group recommendations helped shape an approach focused on addressing shared needs across the Canadian baseball system.

THE INVESTMENT WILL SUPPORT

- Grassroots programming such as **Rally Cap** and **Baseball5**
- Women's and girls' baseball
- Coach education
- Officials and umpire development
- National Championships
- Additional resources to support the delivery of national programs and services
- Dedicated subsidies will also help reduce financial barriers to coach education and assist teams with the cost of travelling to Baseball Canada National Championships.
